

RHINO

Heavy Duty Airless
Spray Painting
Equipment

This range is designed for tough working conditions and suitable for high viscosity, solvent less, low solvent coating, semisolid coating, marine coating etc applications.

FEATURES

- ◆ Pneumatically sensed high performance air motor
- ◆ High pressure with high output discharge
- ◆ Stainless steel rust proof hydraulic body
- ◆ Easy maintenance
- ◆ Ice free air motor technology
- ◆ Durable and rugged, easy to handle
- ◆ Compliance to EC and Atex norms

APPLICATIONS

- ◆ **Heavy Structural Painting**
Used for high-viscosity coating on large steel structures like bridges and towers.
- ◆ **Railways (Bogies & Wagons)**
Ideal for efficient spray painting of railway bogies and wagons with uniform coverage.
- ◆ **Oil and Natural Gas Industries (Pipes/Valves)**
Applies protective coatings on pipes and valves to resist corrosion in harsh environments.
- ◆ **Water Pipeline**
Used for coating water pipelines internally and externally to prevent rust and degradation
