

DRY ICE ENERGY

The ultimate handy dry ice cleaning solution -
now with the extra punch

Guaranteed quality

Made in Germany

Champ Turbo

Dry Ice blasting machine

- ✓ Gentle cleaning without water and chemicals
- ✓ Easy plug & play solution: powered by compressed air only
- ✓ Clean quickly at low operating costs

Technical data:

Operating power	No electricity needed, system powered by compressed air only
Dimensions (L x B x H)	530 x 370 x 470 mm
Net weight	17 kg
Hopper capacity	4,1 kg
Operating pressure	1 - 10 bar
Compr. air Connection	Safety rapid release coupling, 1/2 Zoll
Dry ice consumption	7 - 27 kg/h blasting pressure (depending on set consumption quantity and used pellet size)
Compr. air consumption	500 - 1.600 l/min depending on blasting pressure and nozzle)
Blasting material	up to 2mm Dry Ice Pellets, Dry Ice Energy Abrasive Blasting Agent
Compr. air requirements	clean, oil-free, dry (pressure dew point < 10°C)
Volume	60 - 90 dB (A) (depending on jet nozzle and surface)

Included equipment:

- ✓ Metering disc 3
- ✓ Pressure gauge incl water filter
- ✓ Blasting gun with 3m hose package
- ✓ 7m compressed air hose with safety clutch
- ✓ Connection of compressed air hose: European
- ✓ standard hose NW 7.2 mm
- ✓ Ice shovel and user manual

Additional equipment:

- ✓ Pressure reducer with water cutter
- ✓ Flat Jet nozzle
- ✓ Flat Jet nozzle XL
- ✓ Angled nozzle
- ✓ Compressed air hose 7m
- ✓ LED lamp Maglite incl. bracket
- ✓ Push bar
